Title:

Sending and receiving objects in physical and health education.

Learning Intention/Description of Learning Activity:

Over time the learners have practiced sending and receiving objects (balls, frisbees etc.) with their hands and feet.

Learning intentions:

- To practice and refined a manipulative skills of throwing, catching and kicking.
- To be aware of the body, space and effort by manipulating objects.

Video evidence will appear here.

Teacher Comments/Feedback:

Video samples will be added at different stages of the year.

Soccer your placement of your feet is perfect which means but I'll go where you wanted it to. Thanks for being an important part of the school soccer team:)

Next Steps:

Soccer – the next step is to adjust the amount of power to get the ball to its target quicker.

You do love your soccer. We'll work on this at home and in practice.

1/27/2020 11:41 AM - Test App P.

Student Self Reflection:

I really like soccer and worked hard at making my pass is accurate.
